Fixed service and variable usage charges

Shepherds Bay Plus business customers pay fixed service and variable usage charges for drinking water, wastewater and recycled water services. Customers receive a monthly bill that covers the following:

- **Drinking water variable usage charge**
Paid monthly in arrears, the variable usage charge reflects the volume of drinking water registered on the water meter at the customer's property.
- **Drinking water fixed service charge**
Paid monthly in arrears, the fixed service charge contributes to the cost of providing and maintaining the drinking water system.
- **Recycled water variable usage charge**
Paid monthly in arrears, the variable usage charge reflects the volume of recycled water used at the customer's property.
- **Recycled water systems fixed service charge**
Paid monthly in arrears, the fixed service charge contributes to the cost of providing and maintaining the recycled water system.
- **Wastewater fixed service charge**
Paid monthly in arrears, the fixed service charge contributes to the cost of providing and maintaining the sewer system.
- **Wastewater variable usage charge**
Paid monthly in arrears, the variable service charge reflects the volume of wastewater discharged based on applying a discharge factor to the volume of drinking water used at the customer's property. Please see our customer contract for more information about the discharge factor.

Trade Waste fees may also be applicable. For more information on these rates, please go to [Shepherds Bay Trade Waste Fees and Charges](#)

Drinking water and wastewater charges and recycle water fixed service charge are no more or less than charged by Sydney Water.

Annual changes to Sydney Water's charges therefore impact on Shepherds Bay Plus' fees and charges.

The Independent Pricing and Regulatory Tribunal (IPART) determines water and wastewater pricing for Sydney Water and local councils. IPART generally does not determine water and wastewater prices for private utilities.

Variation in pricing

If we change our pricing, we will give you notice of any variations as soon as practicable, and in any event no later than your next bill and in accordance with our licence and any applicable laws and codes.

Drinking Water service charges

You pay a fixed charge each month for your connection to our water supply. How much you pay depends on the size of your meter:

- **More than one meter:** If you have more than one meter, you will pay a fixed service charge for each connection to our water supply. How much you pay will depend on the size of your meters and how many you have.
- **Shared water meters:** If you share a meter with other units, you will pay part of the fixed charge for your water connection. We calculate this by dividing the charge for your size meter by the number of units in your complex.
